

GENERAL ADMINISTRATION  
PERSONNEL DIVISION  
OFFICE FOR LECTURESHIP COMPETITIONS

## ANNEX 1

### to Rector's Decree no. 2163 dated 20.12.2021

**CHIM - DEPARTMENT OF CHEMISTRY "GIACOMO CIAMICIAN"**  
**REF. O18C1II2021/1381**  
**COMPETITION SECTOR: 03/A2 - MODELS AND METHODOLOGIES IN CHEMISTRY**  
**SUBJECT GROUP: CHIM/02 - PHYSICAL CHEMISTRY**  
**Posts: 1 Place of employment: Bologna**

Specific functions	<p><u>Teaching commitment</u>: the successful candidate will teach course units relating to the competition sector and subject group in accordance with the national regulations for Full Professors and the need to cover the learning catalogue.</p> <p><u>Scientific commitment</u>: the successful candidate will undertake scientific activities falling within the competition sector, with specific responsibilities in the subject group, with the work performed substantiated by the relative scientific results achieved. The activities entail conducting research in the field of materials for use in energy production, their chemical and physical properties and strategies for increasing their sustainability.</p>
Language	English
Maximum number of eligible publications	12
Assessment standards	
	<p><b>Teaching activities</b></p> <p><b>Available points: 35</b></p>
Teaching activities	Consideration will be given to the volume and continuity of the activities carried out, with particular reference to course units and modules for which responsibility was taken.
Supplementary teaching and student service activities	Consideration will be given to the supervision of undergraduate and postgraduate dissertations and PhD theses for which the candidate was the principal supervisor, as well as the conduct of seminars, case studies and the tutoring of students.
	<p><b>Research and scientific publications</b></p> <p><b>Total available points: 55</b></p>
Research activities	<p>The following will be assessed:</p> <p>a) organisation, management and coordination of national and international research centres, or participation therein, and other research activities such as the management of, or participation in, the editorial committees of journals;</p> <p>b) ownership of patents;</p> <p>c) receipt of national and international awards and recognitions for research;</p> <p>d) coordination of relevant national or international projects.</p>
Research activities	Participation as a speaker at international-level congresses and conferences will also be considered.
Scientific production	Consideration will be given to the overall weight of the candidate's scientific production and its intensity and continuity over time, excluding any adequately documented periods when research activities were involuntarily suspended and other periods of leave or stand-by established by current laws, excluding those allowed for study purposes.
Scientific publications	Consideration will be given to:

	<p>a) originality, innovative nature, methodological rigour and importance of each publication;</p> <p>b) consistency of each publication;</p> <p>c) scientific importance of the journal or other outlet making the publication and its readership within the scientific community;</p> <p>d) analytical assessment, applying criteria recognised by the relevant international scientific community, of the individual contribution of the researcher to collaborative works, which will be determined based on the scientific consistency of the publication with the curriculum vitae submitted, supported by presentations given at conferences, the organisation of seminars and conferences, and receipt of recognitions or scientific awards.</p>
	<p>The Committee will make use of one or more of the following bibliometric indicators, referring to the start date of the assessment:</p> <p>1) total number of citations; 2) average number of citations per publication; 3) total impact factor; 4) average impact factor per publication; 5) combination of the preceding parameters in order to assess the impact of the candidate's scientific productivity (Hirsch or similar index).</p>
	<p><b>Institutional and organisational activities for the University</b></p> <p><b>Total available points: 10</b></p>
	<p>Consideration will be given to the volume and continuity of the activities carried out, with regard in particular to management appointments and the commitment made to boards and committees at significant public and private bodies or scientific and cultural organisations, or at the University and/or other Italian and foreign Universities.</p>
	<p><b>Total available points: 100</b></p> <ul style="list-style-type: none"> <li>- <b>Teaching activities 35 points</b></li> <li>- <b>Research activities 55 points</b></li> <li>- <b>Activities for the University institutional and organisational 10 points</b></li> </ul>

**DAR - DEPARTMENT OF THE ARTS**  
**REF. O18C1II2021/1385**  
**COMPETITION SECTOR: 10/C1 - THEATRE, MUSIC, CINEMA, TELEVISION AND AUDIOVISUAL MEDIA**  
**SUBJECT GROUP: L-ART/06 - CINEMA, PHOTOGRAPHY AND TELEVISION**  
**Posts: 1 Place of employment: Bologna**

Specific functions	<p><b>Teaching commitment:</b> teaching course units of the L-ART/06 subject group in accordance with the national regulations for full professors and the need to cover the learning catalogue, giving priority to the requirements of the centre indicated in the call for applications.</p> <p><b>Scientific commitment:</b> research on topics falling within the L-ART/06 subject group, as envisaged in the declaration and included in the specific work carried out at the centre indicated in the call for applications.</p>

**DIBINEM - DEPARTMENT OF BIOMEDICAL AND NEUROMOTOR SCIENCES**  
**REF. O18C1II2021/1387**  
**COMPETITION SECTOR: 05/H2 - HISTOLOGY**  
**SUBJECT GROUP: BIO/17 - HISTOLOGY**  
**Posts: 1      Place of employment: Bologna**

Specific functions	Teaching and scientific commitment: 350 hours of supplementary teaching and support activities, including 120 hours of lecturing on degree programmes running within the BIO/17 subject group. Coordination and guidance on the institutional needs of the Department and the related degree programmes. Coordination of research groups within the Department and in relation to domestic and international research.
Language	English
Maximum number of eligible publications	16
Assessment standards	

Specific functions	Teaching commitment: teaching of course units within or relating to the ICAR/01 subject group in accordance with the national regulations for full professors and the need to cover the learning catalogue. Scientific commitment: research on topics related to the ICAR/01 subject group, with a particular focus on marine hydraulics.
Language	English
Maximum number of eligible publications	16
Assessment standards	
	Teaching activities. Available points: 40
Teaching activities	Consideration will be given to the volume and continuity of the activities carried out, with particular reference to course units and modules for which responsibility was taken.
Supplementary teaching and student service activities	Consideration will be given to the supervision of undergraduate and postgraduate dissertations and PhD theses for which the candidate was the principal supervisor, as well as the conduct of seminars, case studies and the tutoring of students.
	Research and scientific publications Total available points: 50
Research activities	The following will be assessed: a) organisation, management and coordination of national and international research centres, or participation therein, and other research activities such as the management of, or participation in, the editorial committees of journals; b) ownership of patents consistent with the competition sector disciplines. c) scientific responsibility for research projects awarded funding on the basis of a competitive application procedure, as well as consistency of the activities with the ICAR/01 subject group disciplines; d) receipt of national and international awards and recognitions for research activities.
Research activities	Participation as an invited speaker at international-level congresses and conferences relevant to the competition sector will also be considered.
Scientific production	Consideration will be given to the overall weight of the candidate's scientific production, its consistency with the ICAR/01 subject group and its intensity and continuity over time, excluding any adequately documented periods when research activities were involuntarily suspended and other periods of leave or stand-by established by current laws, excluding those allowed for study purposes.
Scientific publications	Consideration will be given to: a) originality, innovative nature, methodological rigour and importance of each publication; b) consistency of each publication with the subject group; c) scientific importance of the journal in which the publication appears and its readership within the scientific community; d) analytical assessment, applying criteria recognised by the relevant international scientific community, of the individual contribution of the candidate to collaborative works, which will be determined taking into account the number of authors, the position in which the name of the candidate appears in the list of authors and whether the candidate has performed the role of corresponding author.
Scientific publications	The Committee will make use of one or more of the following bibliometric indicators, referring to the start date of the assessment:

	1) total number of citations; 2) total impact factor; 3) combination of the preceding parameters in order to assess the impact of the candidate's scientific production (Hirsch or similar index).
	Institutional and organisational activities for the University Available points: 10
	Consideration will be given to the volume and continuity of the activities carried out, with regard in particular to management appointments and the commitment made to boards and committees at significant public and private bodies or scientific and cultural organisations, or at the University and/or other Italian and foreign Universities.

Scientific publications	<p>Consideration will be given to:</p> <p>a) originality, innovative nature, methodological rigour and importance of each publication;</p> <p>b) consistency of each publication;</p> <p>c) scientific importance of the journal in which the publication appears and its readership within the scientific community;</p> <p>d) analytical assessment, applying criteria recognised by the relevant international scientific community, of the individual contribution of the candidate to collaborative works, which will be determined taking into account also the number of authors, the position of the candidate in the author list (considering also cases in which the first or last author is highlighted), the role of corresponding author, any declarations made in the publication.</p> <p>The Committee will make use of one or more of the following bibliometric indicators, referring to the start date of the assessment:</p> <p>1) total number of citations; 2) average number of citations per publication; 3) total impact factor; 4) average impact factor per publication; 5) combination of the preceding parameters in order to assess the impact of the candidate's scientific productivity (Hirsch or similar index).</p>
	<p>Institutional and organisational activities for the University</p> <p>Available points: 10</p>
	Consideration will be given to the volume and continuity of the activities carried out, with particular reference to management appointments and the commitment made to boards and committees at significant public and private bodies or scientific and cultural organisations, or at the University and/or other Italian and foreign Universities.
	<p style="text-align: center;"><b>Total available points: 100</b></p> <ul style="list-style-type: none"> <li>- <b>Teaching activities 45 points</b></li> <li>- <b>Research activities 45 points</b></li> <li>- <b>Activities for the University institutional and organisational 10 points</b></li> </ul>

**DIFA - DEPARTMENT OF PHYSICS AND ASTRONOMY**  
**REF. O18C1II2021/1388**  
**COMPETITION SECTOR: 02/B2 - THEORETICAL PHYSICS OF MATERIALS**  
**SUBJECT GROUP: M-FIL/03 - PHYSICS OF MATERIALS**  
**Posts: 1 Place of employment: Bologna**

Specific functions	The Department envisages the performance of research into the theoretical physics of materials, focusing in particular on the development and application of methods for the <i>ab initio</i> simulation of quantum materials. More specifically, consistent with the Department's development policy in the physics of materials sector, said research must focus on the physical properties of systems with elevated coupling between reticular, electronic
--------------------	---

	and magnetic degrees of freedom, in both 3D and lower dimensions (surfaces and nanostructures). The teaching commitment will include mainly physics of materials/fundamental physics course units in accordance with the national regulations and as needed to cover the learning catalogue, giving priority to the requirements of the Bologna campus.
Language	None
Maximum number of eligible publications	16
Assessment standards	
	<b>Teaching activities</b> <b>Points: 35 points</b>
Teaching activities	Consideration will be given to the volume and continuity of the activities carried out with regard in particular to course units and modules for which the candidate was responsible.
Supplementary teaching and student service activities	Consideration will be given to the supervision of first and second-cycle dissertations and PhD theses for which the candidate was the principal supervisor, as well as the conduct of seminars, case studies and the tutoring of students.
	<b>Research and scientific publications</b> <b>Points: 55</b>
Research activities	The following will be considered: a) organisation, management and coordination of national and international research centres, or participation therein, and other research activities such as the management of, or participation in, the editorial committees of journals; b) Responsibility for or participation in competitive research projects approved after peer review. c) receipt of awards and recognitions for research activities.
Research activities	Participation as a speaker at congresses and conferences of international interest will be considered.
Scientific production	Consideration will be given to the overall weight of the candidate's scientific production and its intensity and continuity over time, in relation to academic seniority, excluding any adequately documented periods when research activities were involuntarily suspended and other periods of leave or stand-by established by current laws, excluding those allowed for study purposes.
Scientific publications	Consideration will be given to: a) originality, innovative nature, methodological rigour and importance of each publication; b) consistency of each publication with the 02/B2 subject group; c) scientific importance of the journal in which the publication appears and its readership within the scientific community; d) analytical assessment, applying criteria recognised by the relevant international scientific community, of the individual contribution of the researcher to collaborative works, which will be determined based on the position of the candidate in the list of authors (first or last author) and his or her role as corresponding author.
	<b>Institutional and organisational activities for the University</b> <b>Points: 10 points</b>
	Consideration will be given to the volume and continuity of the activities carried out, with regard in particular to management appointments and the commitment made to boards and committees at significant public and private bodies or scientific and cultural organisations, or at the University and/or other Italian and foreign Universities.

**DIN - DEPARTMENT OF INDUSTRIAL ENGINEERING**  
**REF. O18C1II2021/1391**  
**COMPETITION SECTOR: 09/B2 - INDUSTRIAL MECHANICAL SYSTEMS ENGINEERING**  
**SUBJECT GROUP: ING-IND/17 - INDUSTRIAL MECHANICAL SYSTEMS ENGINEERING**  
**Posts: 1 Place of employment: Forlì**

Specific functions	The successful candidate will teach and conduct scientific activities within the framework of the ING-IND/17 Industrial Mechanical Systems Engineering subject group. In particular, he or she will teach topics on the design, management and optimisation of industrial and production systems and on supply chain management, making use also of simulated approaches. The research activities will focus on the development of models, methods and expert systems to support the stocking and distribution of products; the design and optimisation of handling and warehousing systems; the design of manufacturing and assembly systems, with a particular focus on ergonomic issues; and the design and optimisation of systems for the production of energy from renewable sources.
Language	English

**SUBJECT GROUP: AGR/01 - AGRICULTURAL ECONOMICS AND RURAL APPRAISAL**  
**Posts: 1      Place of employment: Bologna**

Specific functions	A full professor is required to cover the teaching and scientific needs of the 07/A1 competition sector with reference to the declaration for the AGR/01 subject group.
Language	Competence in English will be assessed
Maximum number of eligible publications	15
Assessment standards	
	<b>Teaching activities.</b> <b>Available points: 30</b>
Teaching activities	Consideration will be given to the volume and continuity of the activities carried out related to the AGR/01 subject group, with regard in particular to course units and modules for which the candidate took responsibility, subject to their consistency with the AGR/01 subject discipline.
Supplementary teaching and student service activities	Consideration will be given to supplementary learning activities related to the supervision of first and second-cycle dissertations (or those of specialist degrees or degrees pertaining to the old degree system) and PhD theses, the conduct of seminars, case studies and the tutoring of students.
	<b>Research and scientific publications</b> <b>Available points: 55</b>
Research activities	The following will be assessed: a) organisation, management and coordination of national and international research centres, or responsibility for research units for national and international projects or participation in the same. Consideration will be given to the candidate's ability to obtain research funding through projects and agreements and other activities including managing and participating in the editorial committees of journals; b) national and international awards and recognitions for research activities.
Research activities	Participation as a speaker at international-level congresses and conferences relevant to the AGR/01 sector will also be considered.
Scientific production	Consideration will be given to the overall weight of the candidate's scientific production and its intensity and continuity over time, excluding any adequately documented periods when research activities were involuntarily suspended and other periods of leave or stand-by established by current laws, excluding those allowed for study purposes.
Scientific publications	The assessment criteria for the scientific publications are predetermined by the regulations and will refer to the following aspects: a) Originality, innovative nature, methodological rigour and importance of each

	<p>publication;</p> <p>b) Consistency of each publication with the subject group;</p> <p>c) Scientific importance of the journal in which the publication appears and its readership within the scientific community;</p> <p>d) The individual contribution of the candidate to collaborative works will be determined based on: The declaration of all the authors based on that reported in the publication; Alternatively, any declarations in lieu of the above, drafted in accordance with art. 47 of Presidential Decree 445 dated 28 December 2000 and included in the documentation attached to the application of each candidate; Alternatively, the role of the candidate as “first author” or “corresponding author” will be considered.</p> <p>In assessing the publications, the Committee may make use of one or more bibliometric indicators which will refer to the start date of the assessment.</p>
	<p><b>Institutional and organisational activities for the University</b> <b>Available points: 15</b></p>
	<p>Consideration will be given to the consistency of the activities carried out, with regard in particular to management appointments and the commitment made to boards and committees at significant public and private bodies or scientific and cultural organisations, or at the University and/or other Italian and foreign Universities, determined in relation to type and duration.</p>

**FILCOM - DEPARTMENT OF PHILOSOPHY AND COMMUNICATION STUDIES**  
**REF. O18C1II2021/1440**  
**COMPETITION SECTOR: 11/C1 – THEORETICAL PHILOSOPHY**  
**SUBJECT GROUP: M-FIL/01 – THEORETICAL PHILOSOPHY**  
**Posts: 1 Place of employment: Bologna**

Specific functions	The Department will expect the successful candidate to carry out teaching and research activities related to Theoretical Philosophy in accordance with the following guidelines drawn from the subject group declaration: Philosophical research arguments and concepts are developed through critical comparison with other cultural realities and diverse disciplines, in relation to sector conventions and the different specialist fields of philosophy. On the one hand, research in the sector gives an account of the different philosophical perspectives, while on the other, it facilitates dialogue between various forms of knowledge, with a view to encouraging a more in-depth critical analysis and interpretation of knowledge, philosophy, communication, hermeneutics and religion beyond the boundaries of subject specialisms, within and outside of the field of philosophy.
Language	The Committee will assess the English language skills of the candidates based on their teaching and academic qualifications.

**LILEC - DEPARTMENT OF MODERN LANGUAGES, LITERATURES AND CULTURES**  
**REF. O18C1II2021/1403**  
**COMPETITION SECTOR: 10/M2 - SLAVIC STUDIES**  
**SUBJECT GROUP: L-LIN/21 - SLAVIC STUDIES**  
**Posts: 1    Place of employment: Bologna**

Specific functions	The professor will be required to teach course units in the disciplines included in the L-LIN/21 (Slavic Studies) subject group on the first- and second-cycle degree programmes and PhD programmes offered by the Department of Modern Languages, Literature and Culture, as envisaged in the national regulations for full professors and as needed to cover the programme catalogue. The candidate will be required to teach in Italian and in Russian, with a teaching commitment equivalent to 120 hours per year. The scientific commitment entails research activities in the field of Russian literature, applying the skills, methods and tools of the discipline in support of the active research and teaching areas of the department.
Language	Italian, Russian and Polish
Maximum number of eligible publications	12
Assessment standards	
	<b>Teaching activities</b> <b>Available points: 35</b>
Teaching activities	Consideration will be given to the volume and continuity of the activities carried out, with particular reference to course units and modules for which responsibility was taken.

Supplementary teaching and student service activities	Consideration will be given to the supervision of undergraduate and postgraduate dissertations and PhD theses for which the candidate was the principal supervisor, as well as the conduct of seminars, case studies and the tutoring of students.
	<b>Research and scientific publications</b> <b>Available points: 55</b>
Research activities	The following will be assessed: a) organisation, management and coordination of national and international research centres, or participation therein, and other research activities such as the management of, or participation in, the editorial committees of journals; b) national and international awards and recognitions for research activities.
Research activities	Participation as a speaker at international-level congresses and conferences will also be considered.
Scientific production	Consideration will be given to the overall weight of the candidate's scientific production and its intensity and continuity over time, excluding any adequately documented periods when research activities were involuntarily suspended and other periods of leave or stand-by established by current laws, excluding those allowed for study purposes.
Scientific publications	Consideration will be given to: a) originality, innovative nature, methodological rigour and importance of each publication; b) consistency of each publication; c) scientific importance of the journal in which the publication appears and its readership within the scientific community; d) analytical assessment, applying criteria recognised by the relevant international scientific community, of the individual contribution of the researcher to collaborative works, which must be clearly inferable and explicitly stated by the authors in the publication in question. In addition to Italian and English, publications may also be submitted in Russian.
	<b>Institutional and organisational activities for the University</b> <b>Available points: 10</b>
	Consideration will be given to the volume and continuity of the activities carried out, with regard in particular to management appointments and the commitment made to boards and committees at significant public and private bodies or scientific and cultural organisations, or at the University and/or other Italian and foreign Universities.
