Ref. O18C112020/1124
COMPETITION SECTOR: 03/A1 – ANALYTICAL CHEMISTRY
SUBJECT GROUP: CHIM/01 – ANALYTICAL CHEMISTRY
Posts: 1 Place of employment: Rimini

Specific functions	Research activities in relation to the CHIM/01 – Analytical Chemistry subject group, with a particular focus on the study of advanced materials. The successful candidate will be required to teach course units in the subject group and competition sector on the degree programmes for which the Department is responsible and/or to which it contributes.
Maximum number of eligible publications	24
Assessment standards	
	1. Teaching activities. Available points: 35
Teaching activities	Consideration will be given to the volume and continuity of the activities carried out, with particular reference to course units and modules for which responsibility was taken
Supplementary teaching and student service activities	Consideration will be given to the supervision of first and second-cycle dissertations and PhD theses for which the candidate was the principal supervisor, as well as the conduct of seminars, case studies and the tutoring of students.
	2. Research and scientific publications Available points: 55
Research activities	The following will be assessed: a) organisation, management and coordination of national and international research centres, or participation therein, and other research activities such as the management of, or participation in, the editorial committees of journals; b) ownership of patents; c) receipt of national and international awards and recognitions for research activities.
Research activities	Participation as a speaker at international-level congresses and conferences will also be considered.
Scientific production	Consideration will be given to the overall weight of the candidate's scientific production and its intensity and continuity over time, excluding any adequately documented periods when research activities were involuntarily suspended and other periods of leave or stand-by established by current laws, excluding those allowed for study purposes.
Scientific publications	Consideration will be given to: a) originality, innovative nature, methodological rigour and importance of each publication; b) consistency of each publication; c) scientific importance of the journal or other outlet making the publication and its readership within the scientific community; d) analytical assessment, applying criteria recognised by the relevant international scientific community, of the individual contribution of the researcher to collaborative works, which will be determined as follows: scientific consistency of the publication

STAT - DEPARTMENT OF STATISTICAL SCIENCES "PAOLO FORTUNATI"

Ref. O18C1I2020/1150
COMPETITION SECTOR: 13/D2 - ECONOMIC STATISTICS
SUBJECT GROUP: SECS-S/03 – ECONOMIC STATISTICS
Posts: 1 Place of employment: Rimini

Specific functions	The candidate will carry out research into economic statistics, with particular reference to statistical modelling. The candidate will teach basic (first cycle) and advanced (second cycle) course units relevant to the SECS-S/03 subject group. The candidate will also be required to carry out teaching activities in Italian and English. If necessary, the candidate should be willing to carry out teaching activities in locations other than the place of employment, in compliance with University rules, and willing to hold institutional appointments.
Maximum number of eligible publications	15
Assessment standards	
	Teaching activities. Available points: 30
Teaching activities	Consideration will be given to the volume and continuity of the activities carried out, with particular reference to course units and modules for which responsibility was taken. Points will be awarded in this category to candidates who have taught course units on economic statistics at both basic and advanced level. Special consideration will be given to teaching performed in important foreign universities, teaching on Italian and foreign PhD degree programmes and the volume and continuity of the teaching activities consistent with the SECS-S/03 subject disciplines. The maximum number of points available for these activities is 25.
