**Posts: 1 Place of employment: Bologna**

Specific functions	Teaching commitment: the successful candidate will teach course units relating to the competition sector and subject group in accordance with the national regulations for Full Professors and the need to cover the learning catalogue. Scientific commitment: research in areas relevant to the subject group in accordance with the requirements of the ministerial declaration and the specific activities carried out by the Department.
Language	English
Maximum number of eligible publications	15
Assessment standards	
	<b>Teaching activities</b> <b>Available points: 40</b>
Teaching activities	Consideration will be given to the volume and continuity of the activities carried out, with regard in particular to course units and modules for which responsibility was taken.
Supplementary teaching and student service activities	Consideration will be given to the supervision of undergraduate and postgraduate dissertations and PhD theses for which the candidate was the principal supervisor, as well as the conduct of seminars, case studies and the tutoring of students.
	<b>Research and scientific publications</b> <b>Available points: 50</b>
Research activities	The following will be considered: a) organisation, management and coordination of national and international research centres, or participation therein, and other research activities such as the management of, or participation in, the editorial committees of journals; b) ownership of patents; c) receipt of national and international awards and recognitions for research activities.
Research activities	Participation as a speaker at congresses and conferences of international interest will also be considered.
Scientific production	Consideration will be given to the overall weight of the candidate's scientific production and its intensity and continuity over time, excluding any adequately documented periods when research activities were involuntarily suspended and other periods of leave or stand-by established by current laws, excluding those allowed for study purposes.

**SUBJECT GROUP: CHIM/07 - PRINCIPLES OF CHEMISTRY FOR APPLIED TECHNOLOGIES**  
**Posts: 1 Place of employment: Cesena**

Specific functions	The professor will be required to carry out teaching and scientific activities in the 03/B2 Competition Sector, with a particular focus – in terms of the scientific activities – on the synthesis and characterisation of polymeric materials, especially from renewable sources, and on applications in the biomedical field.
Maximum number of eligible publications	20
Assessment standards	
	<b>Teaching activities</b> <b>Available points: 40 points</b>
Teaching activities	Consideration will be given to the volume and continuity of the activities carried out, with regard in particular to course units and modules for which responsibility was taken. To earn points in this category, candidates must have taught course units or modules relevant to the 03/B2 Competition Sector for at least 30 hours. For this reason, candidates are required to specify in their CV the number of hours taught on each course unit/module.
Supplementary teaching and student service activities	Consideration will be given to the supervision of undergraduate and postgraduate dissertations and PhD theses for which the candidate was the principal supervisor, as well as the conduct of seminars, case studies and the tutoring of students.
	<b>Research and scientific publications</b> <b>Available points: 50 points</b>
Research activities	The following will be considered: a) organisation, management and coordination of national and international research centres, or participation therein, and other research

GENERAL ADMINISTRATION
