Art. 2

Subjective requirements to participate in the selection

1. The selection procedure is open to:
 - a. candidates who have obtained a national qualification in accordance with Article 16 of Law 240/2010 for the competition sector merged into the Subject Area to which the call for applications refers and for the functions to which the procedure refers, or for higher functions provided they do not already perform those higher functions;
 - b. candidates who are eligible pursuant to Law 210/1998 for the category to which the call for applications refers, solely for the period of eligibility.
2. The procedure is not open to professors who, on the deadline for submitting applications, are employed as full professors. Any subsequent changes affecting the requirement at issue after that date must be notified promptly to the Ufficio Concorsi Docenti.

3. Candidates working abroad in university teaching or research will be assessed for compliance with the requirement to apply in the procedure based on the tables of equivalence between the role declared by each candidate and the Italian academic positions established by the Ministry of University and Research by Ministerial Decree no. 456 dated 10 May 2023 or based on the MUR's opinion about the equivalence of the role in question with Italian academic positions. The Ministry shall express an opinion within 60 days of the University's request. In cases where the Ministry's opinion needs to be obtained, the candidate shall be admitted to the procedure on a conditional basis.
4. Applicants who, at the time of submitting their application, have a degree of kinship or affinity up to and including the fourth degree with a professor of the Department that seeks to fill a vacancy or of the entity making the call or with the Rector, the Director General or a member of the Board of Governors of the University, may not take part in the selection.
5. The candidate must meet the requirements provided for by this article by the deadline for submitting applications. Any subsequent changes affecting the requirements for participation must be notified promptly to the Ufficio Concorsi Docenti.
6. Candidates are accepted on a provisional basis. By reasoned decision, the Rector may exclude applicants from the procedure at any time for failing to meet the relevant requirements.

Art. 3

Online application

1. Applications to participate in the selection, together with the qualifications held and the documents and publications considered useful for the procedure, **must be submitted online, under penalty of exclusion**, using the dedicated IT application available at the following link:

<https://pica.cineca.it/unibo/>

2. **This is the only valid method to submit applications and the documents considered useful to participate in the selection procedure.**
3. Participation in the selection is only possible after self-registering with the system using an email account, which does not need to be a certified email account.
4. The candidate must enter all the information required to prepare the application and attach the related documents in PDF format. The application form must be completed in full, as specified by the online procedure.
5. The online application allows the documents in draft mode to be saved up until the deadline for submitting the application. Please note: The "draft" status does not indicate submission of the

application. In order to confirm that they wish to proceed with the application, candidates must ensure that the status of their application is “submitted”. Therefore, only applications showing the “submitted” status by the relevant deadline will be considered for the purpose of participating in the procedure and consequently sent to the Committee to be assessed. The date of online submission of the application is certified by the IT system, which issues a receipt that is sent automatically to the candidate via email upon submission of the application.

6. After completing the application and adding all the relevant attachments, the candidate must ensure that they click on “submit”. Completion of the application process will be indicated by the change in the application status, which will switch from “draft” to “submitted”. On completing the application process, the candidate will receive an automatic email confirming submission of their application.

7. After the deadline for submitting the application, the system will no longer allow the electronic form to be accessed or submitted.

8. The application must be prepared and submitted online **by and no later than 11.59 p.m., Italian time, on the thirtieth day following that of publication of the call for applications in the Italian Official Gazette – IV special series – Competitions and exams.**

Each application will be assigned an identification number that, together with the competition code indicated by the IT application, must be specified in all subsequent communications.

9. Users can access the University of Bologna website (<https://bandi.unibo.it/docenti/procedure-chiamata-professori>) to consult a brief “Practical guide for completing the application on the PICA platform”.
