## **Article 2**

### **Subjective requirements for participation in the selection procedure**

1. The selection procedure is open to:
  - a. candidates who have obtained a national qualification in accordance with Article 16 of Law no. 240/2010 for the subject area of the competition included in the subject group to which the call for applications refers and for the functions to which the procedure refers, or for higher functions provided they do not already perform those higher functions;
  - b. candidates who are eligible pursuant to Law no. 210/1998 for the category to which the call for applications refers, solely for the period of eligibility;
  - c. professors already employed by a different University in the category to which the call for applications refers;
  - d. academics with permanent employment abroad, performing research or teaching activities at the university level in positions that are equivalent to those to which the call for applications refers, as determined by reference to the tables of equivalence issued by the Italian Ministry of University and Research (hereinafter referred to as the MUR) in Ministerial Decree no. 456 dated 10 May 2023. The University may obtain the opinion of the MUR on the equivalence between the role declared by the candidate and the Italian academic positions. The MUR shall express an opinion within 60 days of the University's request. In cases where the opinion of the MUR needs to be obtained, the candidate shall be admitted to the procedure on a conditional basis.
2. Applicants who, at the time of submitting their application, are consanguineal relatives or are relatives through marriage up to and including the fourth degree with a professor of the

Department that seeks to fill a vacancy or of the entity making the call or with the Rector, the Director General or a member of the Board of Governors of the University, may not take part in the selection.

3. The candidate must meet the admission requirements provided for by this article by the deadline for submitting applications to the selection procedure. Any subsequent changes affecting the requirements for participation must be notified promptly to the Ufficio Concorsi Docenti office.
4. Candidates are accepted on a provisional basis. By reasoned decision, the Rector may exclude applicants from the procedure at any time for failing to meet the relevant admission requirements.

### **Article 3** **Online application**

1. Applications to participate in the selection, together with the qualifications held and the documents and publications considered useful for the procedure, **must be submitted online, under penalty of exclusion**, using the dedicated IT application available at the following link:

<https://pica.cineca.it/unibo/>

2. **This is the only valid method to submit applications and the documents considered useful for participating in the selection procedure.**
3. Participation in the selection is only possible after self registration with the system using an email account, which does not need to be a certified email account.
4. The candidate must enter all the information required to prepare the application and attach the related documents in electronic PDF format. The application form must be completed in full, as specified by the online procedure.
5. The online application allows the documents in draft mode to be saved up until the deadline for submitting the application. The “draft” status does not indicate submission of the application. In order to confirm that they wish to proceed with the application, candidates must ensure that the status of their application is “submitted”. Therefore, only applications showing the “submitted” status by the relevant deadline will be considered for the purpose of participating in the procedure and consequently sent to the Committee to be evaluated. The date of online

submission of the application is certified by the IT system, which issues a receipt that is sent automatically to the candidate via email upon submission of the application.

6. After completing the application and uploading all the relevant attachments, the candidate must ensure that they click on “submit”. Completion of the application process will be indicated by the change in the application status, which will switch from “draft” to “submitted”. Upon completion of the application process, the candidate will receive an automatic email confirming submission of their application.
7. **After the deadline for submitting the application, the system will no longer allow the electronic form to be accessed or submitted.**
8. The application must be prepared and submitted online **by and no later than 11.59 p.m., Italian time, on the thirtieth day following that of publication of the call for applications in the Italian Official Gazette – IV special series – Competitions and exams.** Each application will be assigned an identification number that, together with the competition code indicated by the IT application, must be specified in all subsequent communications.
