REPUBLIC OF SINGAPORE - Singapore

NATIONAL UNIVERSITY OF SINGAPORE

Exchange places

2

Duration

One semester (either 1st or 2nd semester)

Schools or Departments open to exchange students

Exchange students are allowed to attend undergraduate courses (modules) held at the following Schools: Faculty of Arts & Social Sciences (FASS), Faculty of Engineering (FoE), Faculty of Science (FoS), School of Computing (SoC), and School of Design & Environment (SDE), with several exceptions (see the “Limitations” paragraph). Each module is matched with a code, composed of either two or three letters followed by four numbers, the first one indicating the course year. Exchange students are allowed to take courses whose code ranges from 1000 to 3000.

Limitations

Exchange students cannot attend courses offered by the Faculty of Dentistry, Yong Loo Lin School of Medicine (only for modules not beginning with the LSM prefix), Saw Swee Hock School of Public Health (graduate modules), Alice Lee Centre for Nursing Studies, Institute of Systems Science and all the modules listed in the following link: <http://nus.edu.sg/registrar/info/gd/Self-Funded-Graduate-Programmes.pdf>. Because of the competitiveness of the courses, there is an extremely limited access also to the few courses offered by the Department of Pharmacy of the Faculty of Science, to undergraduate modules offered by the Saw Swee Hock School of Public Health, the University Scholars Programme. The faculties of Law and Business are not available for exchange students, since these two Departments only accept students on the basis of specific agreements that do not include the University of Bologna.

For the Faculty of Architecture and Computer Science, courses are open only to students who are already enrolled in a degree programme belonging to these two disciplines, although with a limited access to courses that will need to be verified upon request. Please note that undergraduate level courses of Economics offered by the Faculty of Arts and Social Sciences are only open to undergraduate level students (only modules from 1000 to 3000 with the EC prefix). Attendance to these courses cannot be guaranteed, since highly requested because of the competitiveness of the University; therefore, it is necessary to present a rather flexible study plan, indicating alternative courses as well. Modules with GEK, GEM and SSA are not available for exchange students. All the restrictions are listed, for each Faculty/School/Programme, on the following web page: <http://www.nus.edu.sg/registrar/info/info/Non-Graduating-Module-Restrictions.pdf>. Students are suggested to carefully check this page, making sure that the modules they are interested in are available for exchange students and are not accessible under restrictions.

Language requirements

Exchange students are requested to provide a TOEFL iBT with a minimum overall score of 79. Alternatively, Exchange students may provide an IELTS (Academic) certificate with a minimum overall score of 6.5.

At the following page, you may find short descriptions of the modules:

<http://www.nus.edu.sg/nusbulletin/search-modules/>

Generally, students are requested to present a flexible study plan which includes alternative modules, since not all courses can be guaranteed because of the high number of requests. Moreover, the module system also involves some prerequisites that might be required to the student before taking certain courses. Therefore, students would need to complete *pre-requisite module(s)*; for further information, we suggest to have a look at the “*Pre-requisites, Co-requisites, and Preclusions*” paragraph on the following web page: <http://www.nus.edu.sg/registrar/education-at-nus/modular-system.html>. Please also note that 4000, 5000 and 6000 level courses are only available for NUS students. In some cases, NUS is willing to consider certain courses with similar contents taken at the University of Bologna as equivalent courses.

At NUS, credits are called Modular Credits (MCs). Exchange students are requested to obtain an amount of credits ranging from 12 MCs (approximately, 3 modules) to 20 MCs (approximately, 5 modules) per semester.
