Art.3 Scholarship amount

The scholarships, in limited numbers, are intended as partial financial assistance for the expenses related to the stay of studies abroad, especially in cases where the life costs are particularly high.

The University Board of Directors decided to set a minimum threshold of 1,000.00 euros and a maximum of € 3,100.00, net of the charges borne by the Entity.

The amount of the scholarships will be determined by a Commission. The amounts of the individual scholarships may vary according to the destination and the duration of the stay abroad (which cannot exceed SIX months and cannot be less than TWO months). The winners will be notified to their institutional mail. The scholarships will be assigned upon the start of the mobility upon uploading the "Certificate of stay" duly completed and signed in the "Arrival" section and uploaded on the appropriate AlmaRM section.

The length of the study period abroad as indicated in the certificates of arrival and departure needs to correspond to what the student has indicated when submitting the application to the Call. A shorter period could imply a partial refund of the grant received; therefore, it must be immediately communicated, **before the start of the mobility**, to: distal.internazionalizzazione@unibo.it
