### FACILEX

*Facilitating Mutual Recognition: Analytics and Capacity Building Information Legal eXplainable Tool  
To Strengthen Cooperation in the Criminal Matter*

#### *Call for experts*

FACILEX is a Justice Programme Action Grant carried out in Bologna by a research unit composed by Prof. Giulia Lasagni, Prof. Giuseppe Contissa, Prof. Michele Caianiello. The aim of the research is to deliver a multilevel online platform offering tailored legal support on the implementation of the EU mutual recognition instruments (European Arrest Warrant, European Investigation Order, Regulation 1805/2018) in nine Member States (Bulgaria, Croatia, France, Germany, Italy, Poland, Portugal, Spain, The Netherlands).

A certain degree of international exchange is critical to the action's success: to ensure it, the project's staff is recruiting a legal expert.

The job of the expert entails:

- a) Selecting and analyzing national legislation implementing Directive 2014/41/EU, Framework Decision 2002/584/JHA and Regulation 1805/2018, as well as the national jurisprudence in the Portuguese legal system. The subcontractor will collaborate on the collection of case studies drawn from national case law, which will form the basis for the development of the FACILEX platform. It will require the collection of detailed information on the factual and legal issues of the selected cases, the relevant rules applied, a summary in English of the court decision and references to CJEU case law, if any;
- b) Uploading the data gathered in the context of a) on the platform template;
- c) Drafting a national report gathering all the findings of the of the analysis conducted in a).

The expert, however, will have a unique contribute to give, restricting her/his analysis to Portugal.
