In this context, it has been decided to give greater linguistic visibility to gender differences. Where, solely for the sake of simplicity, the masculine form is used in this document, it is understood as referring to all persons who work within the community.

### SECTION 1 - AVAILABLE PLACES

The Collegio restricts the number of students based on the resources available.
For the 2020/2021 academic year, the following places are available at the Collegio Superiore:
- 9 places in the humanities and economics subject area (A)
- 9 places in the science and technology subject area (B).

If it is not possible to assign all 9 places on the ranking list of one subject area due to an insufficient number of suitable candidates, the Committee may ask the Director of the Collegio Superiore to assign places to candidates from the ranking list of the other subject area, until all 18 places have been assigned.

If it is not possible to assign all 18 places available due to a lack of suitable candidates, the Committee may ask the Director of the Collegio Superiore to add the remaining places to those made available in the call for admissions to the Collegio Superiore for students enrolled for the first year of a second-cycle degree programme (II cycle), assigning them to the most deserving suitable candidates, regardless of subject area. In the event of equal scores (ex aequo), priority will be given to the candidate that graduated from another university and, if there is still a tie, preference will be given to the youngest candidate.

SECTION 2 - QUALIFICATIONS REQUIRED FOR ADMISSION

In order to participate in the entrance exam and to subsequently enrol, candidates must:

1) be in possession of at least one of the following qualifications:
   • diploma awarded by an upper secondary education institute following five years of study, by high schools specialising in teacher training or art with successful completion of a supplementary year of study. It is possible to register for the entrance exam and to enrol on the degree programme without the secondary school diploma, which must nonetheless be achieved by 28 December 2020. Failure to do so will invalidate your enrolment at the University of Bologna and result in the loss of student status along with the obligation to pay the tuition fees and return the grant awarded to partially cover meals and study costs. Achievement of the qualification will be subject to further checks.
   • diploma awarded by an upper secondary education institute following five years of study which does not offer a supplementary year. In this case, candidates will be required to satisfy additional learning requirements at the University of Bologna by 31 March 2022. Failure to satisfy these requirements will result in the loss of student status and the obligation to pay the tuition fees and return the grant awarded to partially cover meals and study costs.
   • degree qualification obtained abroad following twelve years of study, which enables admission to the University and to the chosen degree programme in the country where it was obtained, in accordance with the regulations set out in the MUR Circular for the 2020/21 academic year and published on the website www.studiare-in-italia.it/studentistranieri/. The degree qualification must be obtained by 28 December 2020 otherwise the student's enrolment at the University of Bologna will be invalidated with the resulting loss of student status and the obligation to pay the tuition fees and return the grant awarded to partially cover meals and study costs. More detailed information is available on www.unibo.it/IscrizioniLaureaTitoloEstero. Non-EU candidates or those with foreign qualifications must observe the specific rules set out in the call for applications for admission to the degree programmes.

2) enrol for the 2020/21 academic year for the first time in the first year of a first- or single-cycle
degree programme at the Alma mater Studiorum – University of Bologna.

Participation is not open to candidates who enrolled in previous years on a first- or single-cycle degree programme, candidates that have a degree diploma (awarded after 4-6 years of study) or a first-level higher education diploma in art, music and dance (AFAM), candidates transferring from another degree programme of the University of Bologna or from another university, or those who have withdrawn from their studies. However, students can participate in the entrance exam if they enrolled for a first- or single-cycle degree programme at another Italian university for the first time in the 2020/21 academic year. Students who are offered admission to the Collegio Superiore and who accept the place must formally withdraw from their studies at the university where they are enrolled and enrol for a first- or single-cycle degree programme at the University of Bologna.

Candidates participating in the entrance exam for admission to the Collegio Superiore must enrol by the deadlines established for all students and, for restricted access degree programmes and those with an entrance exam, must sit and pass the related entrance exams in accordance with the procedures and deadlines envisaged in the calls for applications or the specific notices of the degree programmes and, in all cases, by no later than 29 October 2020, it being understood that students enrolling after the standard deadlines or those established by the call for applications or notices will be charged the relative interest.

SELECTION STAGES
The selection procedure is divided into various stages (pre-selection through TOLC, selection based on a written exam, oral exam) the times and procedures of which are set out in this call for applications. Amendments and/or supplements to the call for applications will be published on the Collegio Superiore's website.

The manner in which the written exam is to be taken and the procedures for remote participation will be subsequently defined and published on the Collegio Superiore website (www.collegio.unibo.it) at least 15 days prior to the written exam. The date may be subject to change due to circumstances unforeseeable at the time of publishing this call for applications. In this case, the relative information will be promptly sent via email to your university email address and published on the Collegio Superiore website.

Unless otherwise indicated, candidates are forbidden from using or having about their person calculators, mobile phones, smartphones, PDAs, smartwatches and any other tool able to store information or transmit data, with the exception of the tools necessary to sit the exam. Candidates who fail to abide by this rule will be excluded from the competition. Candidates may not abandon their desk for any reason during the exam.

Likewise, the selection procedure will go ahead even if the number of candidates present on the day of the exam is less than or equal to the number of places available.

The written exam, which is the same for all candidates, entails:
- writing 2 short essays (max. 3000 characters each, including spaces) on a humanities-economics topic and on a science-technology topic
- answering 7 open questions (max. 1000 characters each, including spaces) on topics related to general culture, science, literature, politics-institutions and law-economics.

Candidates will have a total of 3 hours to complete the exam. Candidates who have requested adaptations as provided for in Annex 2 to this call for applications will be allotted extra time.

The oral exam will take place on the date indicated in the interview calendar. The oral exam will consist in an interview lasting around 30 minutes intended to verify the broad and high-level cultural preparation of the candidate and will assess possession of the attitudes needed to study at the Collegio Superiore.

The exam will be conducted remotely using tools that can ensure publicity of the exam sessions and identification of the candidates. The manner in which oral exam is to be taken and the procedures for remote participation will be subsequently defined and published on the Collegio Superiore website (www.collegio.unibo.it) at least 15 days prior to the exam.

You will need to have a computer with a webcam (or another suitable device) connected to the Internet and the best bandwidth available.

Candidates that do not connect or who cannot be located on the date and at the time of the interview or who are unable to produce a valid identity document pursuant to Presidential Decree 445/2000, will be deemed to have withdrawn from taking part in the interview and, therefore, in the selection procedure, whatever the reason.

The Committee will check the identity of each candidate, comparing the personal data contained in the identity document with that communicated by the candidate when registering for the selection procedure. Candidates are therefore reminded that it would be best to bring the same identity document used when registering for the exam.
SECTION 7 - RANKINGS FOR THE WRITTEN EXAM AND FINAL RANKINGS

The ranking lists in the written exam will be drawn up in the order established based on the points assigned and the respective subject area based on the TOLC taken (see section 3).

The answers given in the written exam will be assessed based on the following criteria: the overall score assigned to each candidate for the written exam will be out of 100 overall points and based on the quality, completeness, accuracy and logic of the arguments made, the solidity and depth of the cultural references included, and the originality of the solutions given.

Candidates will be admitted to the oral exam if they obtain a score of at least 70/100, which will be assigned with reference to the quality, completeness, accuracy and logic of the arguments made, the solidity and depth of the cultural references included, and the originality of the solutions given.

Admission to the oral exam will be open to the first 20 candidates on the two ranking lists, subdivided by the area of reference, and any ex aequo candidates.

The ranking lists for the written exam, together with the timetable for the interviews with candidates admitted to the oral exam, who will be called in alphabetical order, will be published on the Studenti Online website (www.studenti.unibo.it - Details of the application) by 5 pm on 21 July 2020, which will represent valid notification for all legal intents and purposes.

The score assigned for the oral exam will be out of 100 and based on the same criteria used for assessing the written exam.

Candidates who obtain a score of at least 80/100 will be deemed to have passed the exam.

The Examination Board, based on the average scores obtained by the suitable candidates in the written and oral exams, will compile two separate ranking lists based on merit, one for the humanities and economics subject area, and one for science and technology subject area.

The first 9 suitable candidates on each ranking list will be declared as successful.

The ranking list is compiled based exclusively on merit with reference to all participants until the available places have been allocated.

Ex aequo distinction: in the event of equal scores, priority will be given to the candidate that obtained the highest score in the written exam and, if there is still a tie, preference will be given to the youngest candidate.

The final rankings will be approved by Decree of the Director of the Collegio Superiore and published on Studenti Online (www.studenti.unibo.it) in the entrance exam details section by 5 pm on 27 July 2020.

Publication of the rankings on Studenti Online is the only authorised means by which the results of the exams will be published.

SECTION 8 - ACCEPTANCE AND ENROLMENT

A. WHEN TO ACCEPT
If you are ranked among the successful candidates, you must present or send your acceptance confirmation, using the University email address (studio.unibo.it), to the following email address: segreteria.collegio@unibo.it (Collegio Superiore of the Alma Mater Studiorum – University of Bologna) by the deadlines indicated in the General Calendar. B. WHEN TO ENROL
If you are successful, you must enrol on a first- or single-cycle degree programme at the Alma Mater Studiorum – University of Bologna by and no later than **29 October 2020**. Failure to do will mean you will not be admitted to the Collegio.

If any successful candidates decide not to accept the places offered, said places will be offered to the next candidates on the ranking list. The repêchage procedure is followed to identify a number of candidates equal to the number of places not taken up after the enrolments. Places are offered in accordance with the order in which the candidates are ranked and the timings indicated in the General Calendar. As the rankings are reviewed, suitable eligible candidates will receive an e-mail at the address indicated in the registration phase and must present or send, within 3 days, their acceptance confirmation, using the University email (studio.unibo.it), to the following address: **segreteria.collegio@unibo.it** (Collegio Superiore of Alma Mater Studiorum – University of Bologna). In any case, students must be enrolled by **29 October 2020**. Students who do not comply with the above obligations and deadlines will be deemed to have implicitly withdrawn, regardless of any excuses for the omissions or delays. ANNEX 1 - TOLC-I AND TOLC-SU

WHAT IS THE TOLC?
The CISIA Online Test (TOLC) is an orientation tool for the assessment of initial abilities, available on a computerised platform and managed by the Consortium of Inter-University Integrated Access Systems (CISIA). It is an individual test, different for each student and consists of questions that are automatically and randomly selected from the CISIA TOLC database by a software developed and managed by CISIA. All generated TOLCs of the same type are of the same level of difficulty. The CISIA TOLC database contains the questions used in the test and is protected and validated by scientific committees set up for this purpose by the CISIA.

TOLC-I consists of 50 questions (20 maths questions, 10 logical reasoning questions, 10 science questions, 10 verbal understanding questions) and has a duration of 1 hour 50 minutes.

The TOLC-SU consists of 50 questions (30 questions on reading comprehension and knowledge of the Italian language, 10 questions on knowledge and skills gained through academic study and 10 questions on logical reasoning) and has a duration of 1 hour and 40 minutes.

The tests also include an English section consisting of 30 questions and 15 minutes of additional test time, the results of which neither affect assessment for the call for applications nor substitute any eventual language testing in degree programme admission requirements. This section is a self-evaluation opportunity for students and renders the test more compatible at the national level with other universities.

The results of the test, with the exception of the English language assessment section, are calculated as follows:

<table>
<thead>
<tr>
<th>Answer Type</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>correct answer</td>
<td>1 point</td>
</tr>
<tr>
<td>incorrect answer</td>
<td>0.25 points</td>
</tr>
<tr>
<td>answer not given</td>
<td>0 points</td>
</tr>
</tbody>
</table>

The score for each section will be weighted based on the criteria indicated in section 4 - PRE-SELECTION RANKING LISTS WITH TOLC-I AND TOLC-SU.

ANNEX 2 - ADAPTATION REQUEST FOR CANDIDATES WITH SPECIAL NEEDS AND SPECIFIC LEARNING DISABILITIES (SLD)

There are two different procedures for students with special needs or specific learning disabilities (SLD) who intend to submit a request for adaptations for the exam:

1. for participation in the PRE-SELECTION procedure with TOLC
2. for participation in the Collegio Superiore SELECTION procedure with a written (and potentially oral) exam.

1. Request for adaptations for the pre-selection procedure with TOLC

If you are a student with special needs or learning disabilities, and want to request adaptations to be made for the TOLC test, you must select this option when registering in the TOLC section of the CISIA website (www.cisiaonline.it). In the email confirming your registration, you will find a link to a form where you must specify the facility where you will take the TOLC, your special needs or learning disabilities, the type of support required and an area where you can upload the necessary documents. This documentation will be immediately sent to the relevant university offices where the test will take place and arrangements will be made so that you can take the test in the best possible conditions.

For candidates who wish to take the TOLC at the University of Bologna

Adaptations may comprise:
- extra time (+30% for candidates with SLD, SEN, disorders or other forms of disability; +50% for candidates with legal disability and/or handicaps pursuant to Law 104)
- necessary aids (tools for reading the text, non-scientific calculator, other).

Adaptations may be requested only by candidates in possession of the following:
- diagnosis of Specific Learning Disabilities (SLD), pursuant to Law 170/2010, given by the Italian National Health Service, a registered private centre or a private specialist, accompanied by a document of conformity issued by the Italian National Health Service. The documentation must not be more than three years old or prepared after the age of 18 is reached.
- certificate of handicap pursuant to Law 104/92
- documentation confirming a disorder that may result in an inability to learn, even if only temporarily (e.g. health conditions that may give rise to certain special needs when taking the test)
- documentation confirming a special educational need or disability that affects learning.

Candidates with special needs or SLD resident in foreign countries, who intend to request adaptation, must present the certification confirming their disability or SLD issued in their country of residence, accompanied by an official translation into Italian or English.

The documentation will be assessed by the Service for Students with Special Needs and SLD to ensure the relative requirements are met. The outcome of the assessment will be communicated by the office via an email sent to the address indicated by the candidates when registering on the CISIA website, which the candidates must regularly check. If the documentation is incomplete or hard to read, an email may be sent to request further information which must be provided by the mandatory deadlines specified in said communication.
Once it is recognised that a candidate requires adaptations, said recognition will be valid for all registrations to take a TOLC at the University of Bologna.

Clarification about the procedures for requesting adaptations can be obtained by contacting the Service for Students with Special Needs and SLD in the following manner: by e-mail: abis.adattamentiammissione@unibo.it, or by phone: 3665772027 o 3397344468.

2. Request for adaptations for the Collegio Superiore selection procedure with a written (and potentially oral) exam.

Candidates with special needs or SLD who have passed the PRE-SELECTION stage and require adaptations for the Collegio Superiore SELECTION stage (written and oral exam) must submit the relative request by the SELECTION REGISTRATION deadline.

The procedure for requesting adaptations is as follows:

a) log on to Studenti Online (https://studenti.unibo.it/sol/welcome.htm), click on “APPLICATION FOR ADMISSION – Take part in the selection”, select the “Collegio superiore” course type

b) register for the selection named “Collegio Superiore: I cycle competition”

c) fill in the Adaptation request form, which can be downloaded from the above website (in the section on the procedures for registering for the entrance exam), save it in PDF format and attach it in the relevant section.

Adaptations may comprise:
- extra time (+30% for candidates with SLD, SEN, disorders; +50% for candidates with legal disability and/or handicaps pursuant to Law 104)
- use of aids such as tools to help with reading the text, non-scientific calculator etc. The complete list of possible adaptations is provided on the form.

If the adaptation requested cannot be guaranteed for organisational reasons and/or due to mandatory instructions, an alternative of equivalent compensatory value will be found.

d) Attach the necessary specialist documentation:
- diagnosis of Specific Learning Disabilities (SLD) pursuant to Law 170/2010, prepared by the Italian National Health Service, a registered private centre or a private specialist, accompanied by a document of conformity issued by the Italian National Health Service. The documentation must not be more than three years old or prepared after the age of 18 is reached.

Given the current emergency health situation which has resulted in a reduction of the activities of the Italian National Health Service clinics, requests by candidates diagnosed with SLD pursuant to Law 170/2010 will be admitted even if the certificate is not recent, with the proviso that said candidates will be required to obtain the necessary documentation as soon as normal Italian NHS activities are resumed.

- certificate of handicap pursuant to Law 104/92

- certificate of legal disability

- documentation confirming a disorder that may result in an inability to learn, even if only temporarily (e.g. health conditions that may give rise to certain special needs when taking the test)

- other documentation confirming a special educational need that affects learning.

(N.B. If both the Certificate pursuant to Law 104 and other medical documentation is held, it is important to present both).

Candidates with special needs or SLD resident in foreign countries who intend to request adaptation must submit certification confirming their disability or SLD issued in their country of residence, accompanied by an official translation into Italian or English.
The University Bodies responsible for examining the above certificates will check that the foreign documentation confirms a specific learning disability or disorder recognised under Italian regulations.

PLEASE NOTE: BEFORE CLOSING THE APPLICATION TO REGISTER FOR THE SELECTION PROCEDURE, CHECK THAT THE ABOVE REQUEST FORM AND HEALTH DOCUMENTATION IS ATTACHED.

The documentation will be examined by the Service for Students with Special Needs and SLD to verify that the request for adaptation is consistent with the documentation presented. If the documentation is incomplete or hard to read, supplementary details will be requested by e-mail sent to the university e-mail address nome.cognome@studio.unibo.it, which must be provided by the mandatory deadlines specified in the communication.

It will not be possible to make the required adaptations for candidates who do not submit the request or who do not send the required supplementary documentation by the deadlines indicated in the call for applications.

The adaptations allowed will be notified to the applicant by the Collegio Superiore's Student Administration Office (segreteria.collegio@unibo.it). Clarification on the procedures for requesting adaptations can be obtained by contacting the Service for Students with Special Needs and SLD in the following manner: by e-mail: E-mail: abis.adattamentiammissione@unibo.it, or by phone on 3665772027 or 3397344468.
