Only credits to be gained according to the School Teaching structure and for all Degree Programmes will be considered to assess the total amount of credits within the application deadline.

For students who have previous academic records abroad and have enrolled from year 2-6, the year of registration is to be considered the one they have enrolled in for 2023/24.

For students who have transferred from another Degree Programme in the same university or from another university, the only previously recorded credits to be considered will be the ones recognized in the current Degree Programme.

In case of previous academic record, due to withdrawal, loss of student status or second degree, previously recorded credits will not be considered for the purposes of this call for applications.

Credits obtained from single learning activities and additional learning requirements will not be considered.

In case of a **tie in score**, candidates with a lower registered ISEE will be preferred; in case of a persisting draw, candidates with a higher number of registered honours (Laude) will be preferred; if the draw persists, younger candidates will be preferred.
